Application Initial assessment – quality certified

Quality certification

Your quality management system is certified according to ISO 9001:2005/2015 or equivalent. Please note that the scope of the certifications needs to be relevant for your role as a manufacturer. **Attach a copy** of valid certificate to this application.

Conformity of Production (CoP)

As a manufacturer you are responsible to the Swedish Transport Agency for all aspects of the type-approval or authorisation process and for ensuring conformity of production, regardless of whether you are directly involved in all stages of production or not.

Conformity of production means that the manufacturer have adequate arrangements to ensure that products conform with the approved type.

Please describe information related to that commitment in the fields below and **note that routines under 2-7** are mandatory to attach.

1 Describe the requirements in the regulation for which you apply for (Conformity of Productions criteria's)
Description
Reference in QMS and responsibility
2 Describe how samples are taken for tests
Description
Reference in QMS and responsibility
Mandatory appendix - enter name/no:
3 Describe the implementation of the CoP testing based on the requirements of the regulation. This
is normally described in a control plan. If there are no specified requirements in regulation – what
test are carried out?

Application Initial assessment – quality certified

More information

The Swedish Transport Agency uses an hourly rate for the initial assessment. The fee is invoiced afterwards according to the Swedish Transport Agency's <u>fees.</u>

On our website <u>Type approval - Transportstyrelsen</u> you can find more information about the initial assessment and the whole type approval process.
